

Share your **used equipment** needs with the experts

DLL Asset Sales is your trusted business partner

Who we are

As a global asset finance partner, DLL delivers specialized knowledge and expertise to several distinct industries. Close cooperation with equipment and technology manufacturers, as well as dealers and distributors, enables customized financing models to optimize the circular use of capital goods throughout their entire life cycle. DLL's services range from leasing to supplier and commercial financing, as well as remarketing of used equipment. A wholly owned subsidiary of the Rabobank Group, DLL has delivered support to customers in more than 25 countries for 50 years.

Life cycle asset management – unique differentiator

- High-quality second-life machines available for sale
- Diverse equipment acquisition and management options are available from Europe, Australia, New Zealand, LatAm and Dubai
- High transparency in the sales of used equipment
- Multilingual and professional online platform showcasing the available equipment on sale, including a message function for convenient quotation processing:

Asset trading – our innovative and life-cycle expertise

- DLL understands and supports circular economy solutions to release excess inventory in used equipment
- DLL helps optimize your equipment fleet with targeted trade-in at competitive terms
- DLL's global network allows these assets to be returned to the market through flexible finance solutions.

Who benefits from this activity?

DLL enables businesses to easily access equipment, technology and software in an efficient and sustainable manner. No matter if you are a manufacturer, dealer, distributor or end-customer, DLL's wide-ranging portfolio will be able to meet your equipment needs.

Would you like support to optimize the life cycle value of your used equipment fleet? Would you like to buy or sell some of your equipment?
